### About the Project

The City of Saskatoon (City) will be installing a sanitary force main on Melville Street between Jasper Avenue and Brand Road. A small portion of the force main installation will also extend approximately 100 metres north onto Jasper Avenue from Melville Street. The force main will move sanitary sewage from Stonebridge to the Jasper Avenue lift station.

The City has contracted Kelsey Pipelines to complete work on this project.

The construction is expected to involve a full closure of Melville Street between Jasper Avenue and Brand Road. For the first stage of construction, access to businesses on Edson Street and Portage Avenue will be maintained via Melville Street from the east, and on to Brand Road. For the second stage of construction, access to businesses on Edson Street and Portage Avenue will be maintained via Melville Street from the west, and on to Jasper Avenue.

The project is scheduled to start on August 24, 2015, weather permitting, and the work is expected to take approximately three months to complete.

Local access to businesses will be accommodated during construction.

The map on the other side of this page indicates the work zone area. Thank you for your cooperation and patience during this project.

### Other facts about the project:

- While the work is underway, secure fencing and signage will be installed around the excavation area, however we ask that you stay clear of the work zone for your safety.
- Restoration, including asphalt paving, will occur once the entire project is complete.
- During construction, heavy equipment will be used that has some noise and vibration.

### Frequently Asked Questions:

#### *Will there be traffic restrictions?*

**Yes.** It is expected that Melville Street will be closed between Jasper Avenue and Brand Road. Access to businesses will be maintained at all times. Pedestrian access may be restricted during construction.

#### *Will parking be affected?*

**Yes.** Parking will be restricted on Melville Street and Jasper Avenue throughout construction.

#### *Will my water and/or sewer service be affected?*

**No.** The City is not expecting any water and sewer interruptions.

#### *Will the bus routes change?*

Bus routes along the construction route may be affected throughout the project. During construction, please check the signs posted for alternate bus stop locations or call Saskatoon Transit at 306-975-3100.

#### *Will rain delay the completion of this work?*

**Yes.** Rain could delay the project. If rain delays are experienced, the schedule will be shifted accordingly.

Before the work begins and during construction, we would like to hear any concerns you may have regarding this project. Please contact:
